

02 After Hours Emergencies

Unfortunately, there are times when we are not available to care for your pet immediately. We want you to know that your pet is very important to us and we make every attempt to see your pet when there is an emergent situation during regular business hours.

Estimates are provided to each client detailing all of the anticipated costs when your pet requires a stay at the hospital.

For our after hours care we recommend the Emergency Veterinary Clinic Hwy 10, located at the north end of Brampton.

Whenever a pet requires hands on 24-hour monitoring or develops a potentially serious health condition after our office is closed, this clinic is available to serve you and your pet's needs.

Staffed with veterinarians and technicians specially trained to deal with emergency conditions many of which are not routinely seen in regular practice, the staff at the Emergency Veterinary Clinic Hwy 10 are there to serve at all hours of the night and on all holidays.

There is a cost associated with this level of after-hours specialty care. The staff work throughout the wee hours of the night, with many of them missing precious family time during the holidays in order to serve you and your pet.

The emergency clinic is managed by a veterinarian who is responsible for staff, day-to-day management and acts as a liaison between staff and the board of directors. The board of directors is comprised of veterinary practice owners that rotate throughout different board positions yearly.
